

SUBMISSION OF STUDY PLANS

Students need to submit their study plans online through the Study Plan application on their Gomp Online profile. No hard copies of the study plans are due. Students may indicate their preferences regarding the curricula or the optional exams. The Students Administration Office will carry out controls in order to verify whether the study plan is compatible with the chosen Degree Program and curriculum.

Who is this information for?

All students regularly enrolled to a Degree Program have to submit the study plans online. In all other cases students should contact the Student Teaching Office or the Student Administration Office.

When should study plans be submitted?

Students may submit their study plans before the scheduled deadline. Once the study plans have been submitted they may only be modified once during the second year, within the deadline.
